CURRICULA OVERVIEW

Curriculum	Diploma	Details
Hong Kong	HKDSE	Fuses British structure with a strong Chinese cultural and academic focus. Known for rigorous exams, especially in mathematics and sciences. Students culminate with the Hong Kong Diploma of Secondary Education (HKDSE).
American	AP	Flexible and broad, emphasizing holistic development, creativity, and critical thinking across subjects. Assessment is continuous with varied methods. The diploma is school-based, often requiring completion of credits including Advanced Placement (AP) courses.
British	A-Levels	Structured and subject-focused, leading to IGCSE exams at age 16 and A-Levels at 18. Depth over breadth, with final grades heavily dependent on examinations. A-Level results are the primary university entrance qualification.
Australian	HSC, VCE, WACE	Nationally consistent framework emphasizing cross-curricular priorities like sustainability and Asia engagement. Includes senior pathways (like HSC, VCE, WACE) with both academic and vocational options, leading to a state-based senior secondary certificate.
Canadian	OSSD, Dogwood	Decentralized to provinces, but globally known for the Ontario (OSSD) and British Columbia (Dogwood) diplomas. Balances academics with community involvement and offers flexibility. The OSSD, for example, requires 30 credits and 40 hours of community service.
German	DIA	Highly structured, stratified, and emphasizes depth in core academic subjects, including multiple foreign languages. Prepares students for the rigorous Abitur exam, which combines final exams with continuous grades for university admission.
French	FB	Centralized, rigorous, and philosophically focused, with a strong emphasis on literature, languages, and mathematics. Leads to the Baccalauréat (Bac), a national exam with streams (e.g., General, Technological) that determine university pathways.
International	IB	An integrated, globally focused curriculum emphasizing critical thinking, research skills, and international-mindedness. A rigorous two-year program with six subject groups, a core of Theory of Knowledge, Extended Essay, and CAS (Creativity, Activity, Service). The IB Diploma is a globally standardized qualification for university entrance.
